

1. Castings for crushers:

- (1) Hammers: manganese, bi-metal hammers(chrome iron with alloy steel) or manganese with TiC insert
- (2) Blow bars: manganese steel, chrome iron with or without ceramic

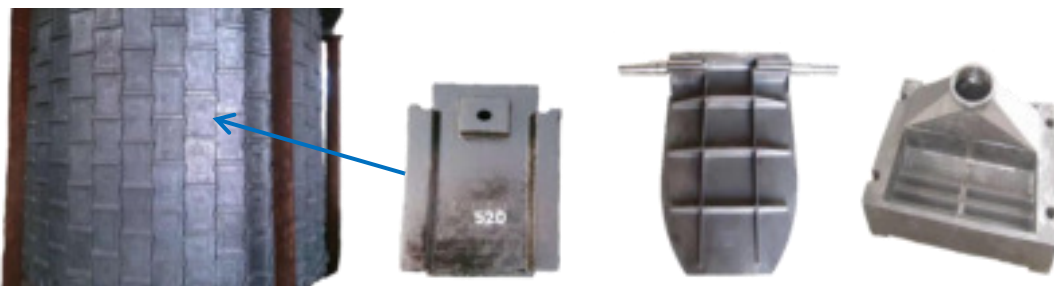

2. Castings for miller:

- (1) Roller for vertical miller: chrome iron with or without ceramic, surface welded material;
- (2) Grinding table for vertical miller
- (3) Grinding balls: cast balls and forged balls;
- (4) Wear plate for ball mill: alloy steel, manganese steel material;
- (5) Other steel spare parts for ball mill (gears, bearing seat and cover)

3. Castings for pre-heater:

- (1) Hanger plate: heat resistant material;
- (2) Valve plate: heat resistant material;
- (3) Nozzle: heat resistant material

4. Castings for kiln

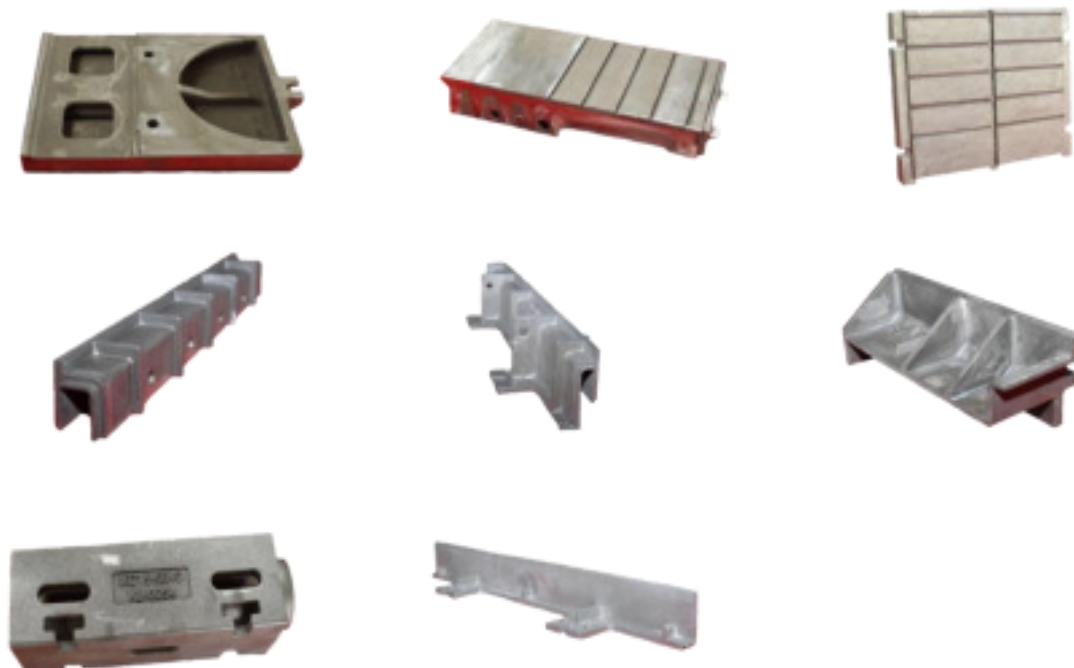

- (1) Kiln inlet and outlet casting: typical material such as Cr25Ni20;
- (2) Girth gear: alloy steel;
- (3) Roller: alloy steel;
- (4) Tyre: alloy steel;

(5) Check wheel: alloy steel;

5. Grate cooler

- (1) Grate plate: heat resistant material, typical material such as Cr25Ni20;
- (2) Cooler grate: heat resistant material, typical material such as Cr25Ni20;

6. Welding parts
